SALTOS DE VOCES

SALTOS EN POSICIÓN FUNDAMENTAL

Los saltos más comunes son:

- salto en el mismo acorde

- Salto entre terceras de acorde (en relación de cuarta o quinta)

- Salto en relación de segunda.

Todos estos saltos implican cambio de disposición

Salto entre el mismo acorde

Implica cambio de disposición

Solo debe haber un salto o dos si una voz salta por cuarta, el resto de las voces deben moverse lo menos posible

The image shows two musical examples side-by-side, labeled 'correcto' and 'incorrecto'. Each example consists of a grand staff with a treble and bass clef. The notes are connected by stems, and the bass line has fingerings indicated by numbers 1, 3, and 5, and letters T and D. The 'correcto' example shows a smooth transition between two chords with minimal voice movement. The 'incorrecto' example shows a transition where one voice part has a large leap, which is considered incorrect.

correcto

incorrecto

1 T 5 .. 1 .. 3 D 5 ..

1 T 5 .. 1 .. 3 D 5 ..

Salto de terceras

Este salto se da en relación de quintas (cuartas)

Si la tercera del acorde se encuentra en la soprano o el tenor entonces esta se puede mover a la tercera del otro acorde, luego de este salto la voz que saltó debe cambiar de dirección.

The image shows a musical score for piano, consisting of two staves (treble and bass clef) and three measures. The first measure is in A-flat major (one flat) and contains a triad of A-flat, C, and E-flat. The second measure is also in A-flat major and contains a triad of A-flat, C, and E-flat. The third measure is in A-flat major and contains a triad of A-flat, C, and E-flat. The notes are connected by slurs and triplets, indicating a sequence of chords. The labels 'Ab. Cerr.' are placed below the first and second measures, and 'Ab. Cerr.' is placed below the third measure.

Se debe evitar el salto de terceras dentro de la escala menor cuando esto involucra a la sensible, en esta escala se pueden producir saltos de intervalos de tritonos. Sin embargo los saltos descendentes son posibles

The image displays two musical examples on a grand staff (treble and bass clefs) illustrating tritone intervals in a minor scale. The first example, labeled 'incorrecto' (incorrect), shows an ascending tritone jump from the 5th degree (labeled '5ta aum.' for augmented 5th) to the 6th degree (labeled '3' for tritone). The second example, labeled 'correcto' (correct), shows a descending tritone jump from the 6th degree to the 5th degree (labeled '4ta dis.' for diminished 4th). Both examples include a '3' indicating the tritone interval.

Saltos en relación de segunda

Esto es posible cuando en la soprano o el tenor tenemos la tercera, en este caso la tercera se mueve hacia arriba junto con el bajo (que no harán intervalos fuertes paralelos ya que serán terceras) y el resto de voces se moverán en sentido contrario a la melodía lo que ocasionará un salto

The image shows a musical score for two voices (Soprano and Bass) in a key with two flats (B-flat and E-flat). The score is divided into three measures. The first measure is labeled 'Cerr' (Close) and 'Ab.' (Abandon). The second measure is labeled 'Ab.' and 'Cerr'. The third measure is labeled '2da. aum' (2nd augmentation) and 'incorrecto' (incorrect). The notation shows the Soprano and Bass parts with various intervals and leaps. The 'incorrecto' label is placed below the final measure, indicating that the leap in the Soprano part is not correct according to the rules discussed in the text.

ejercicios de práctica

Analizar y armonizar

A musical score for piano in B-flat major (two flats) and 6/8 time. The right hand contains a melody consisting of eighth and quarter notes, while the left hand staves are left empty for the student to provide harmonic accompaniment. The score is divided into eight measures, ending with a double bar line.
